

## GPS-A

Pruner attachment

Order no. 532887

GTIN 4030293267275

The pruner attachment (including 80 cm extension) for the battery-powered basic drive allows you to cut high branches to length without needing a ladder. Attachment can be mounted without tools. Thanks to the 25 cm long blade and a chain speed of 13 m/s, branches up to around 20 cm in diameter can be sawn off with ease. There is an automatic lubrication system with an oil reservoir (120 ml) on the pruner to keep the chain running smoothly.

### Technical data

Width	100 mm
Weight	1.6 kg
Height	115 mm
Length	860 mm
Dimensions WxLxH	860 x 100 x 115 mm
Bar length	25 cm
Max. cutting speed	13 m/sec
Packaging unit	1 Cont.
