Cordless random orbital polisher with positive-action drive 18.0 V

XCE 8 125 18.0-EC/5.0 P-Set

Order number 461.245

Cordless random orbital polisher with positive-action drive 18.0 V

- + 8 mm polishing stroke, positive-action drive provides high abrasive power without creating any holograms
- + Ideal for tackling the most common surface problems through to finishing without creating any holograms
- + Low heat generation on the surface makes it ideal for temperature-sensitive paints
- + Brushless motor with greater efficiency and a longer service life
- + Continuous speed control trigger: for a gentle start and a lock-on for continuous operation
- + Electronic management system (EMS) protects the machine, extends the service life, and increases efficiency
- + Flat gear head reduces distance to the surface. The machine can therefore be operated safely in any position.
- + Counterweight for smoother operation
- + Cushioned special hook and loop pad for polishing.
- + Grip hood: ergonomically shaped with SoftGrip. The machine can be controlled with precision and is always comfortable yet secure to hold.
- + Optimised air flow for optimum cooling of motor and gear. No annoying exhaust air for the user
- + LED battery capacity display
- + FLEX battery system: suitable for all FLEX 18,0 V battery packs
