Diamantjet VI - Speedcut

Order no. 534760

GTIN 4030293286009

For cuts in walls, limestone, concrete and porous concrete. Due to the innovative HDS (high density sintered) technology, which can be recognised by the high density and homogeneity of the binding components, the Speedcut cutting disc stands out because of its uniform light cutting action, its long life span and the overheating protection it offers. Due to the ribbed form, only minimal pressure needs to be applied and the debris is removed quickly: the workpiece is cut cleanly and smoothly.
