

VAC 800-EC Air Protect 14

Air purifier with filter HEPA 14

Order no. 505749

GTIN 4030293231078

- + The HEPA 14 filters of the FLEX air purifier filter up to 99.995% of virus and bacteria particles between 0,2µm and 0,3µm from the room air. Thus the risk of infection with Covid-19 is effectively and significantly reduced
- + Viruses in aerosols, bacteria, dust and pollen can be combated. This not only ensures a healthier indoor climate, it also reduces the amount of viruses in the room air to a minimum
- + For cleaning air during renovation and demolition work in very hazardous black areas. To protect users, fine respirable dust is filtered from the air by means of coarse, fine, M/H filters and activated carbon filters
- + Dust is removed directly from wherever it is produced. A low pressure regime can be achieved by installing mobile plastic partitioning and air locks, thus preventing dust from spreading outside the work area.
- + Volume flow monitoring and variable volume flow setting via rotary switch. The low pressure required can thus be freely adjusted and adapted to the working environment
- + Brushless motor with greater efficiency and a longer service life
- + Low operating noise, with night function
- + Compact design, lightest tool of its class with 125 Ø mm exhaust air flow system
- + High air flow
